

**Black - #5 – (West of Cap-Haitien)
Ebenezer Laboratory School
Haut-Limbe, Haiti**

During our 2007 medical mission trip to Haiti our work in Ebenezer Clinic was noticed by the Laboratory School located across the street from Ebenezer clinic. My two team leaders, Christine Bremser and Mary Belanus, toured the school and assessed the need. We decided to accept the laboratory school as a client of Randolph World Ministries, Inc. and committed to performing a formal assessment, offer training, and provide supplies during the 2008 summer trip. The school is directed by Ancelot Jn Paul.
