

**Green - #9 – (South of Port-au-Prince)
Emmanuel Clinic
Port-au-Prince, Haiti**

In 2003 Randolph World Ministries, Inc. established a relationship with Mac Burberry, one of the American directors of Haitian Christian Outreach (HCO). HCO had built a school and church in Port called Emmanuel. They had also just acquired an American Physician Assistant, Teresa Murphy, (upper right panel) who had been a full-time missionary practicing in a clinic in Seguin (upper left panel) for the previous two years. In 2007, I was able to fly from Cap to Port and provide three days of training for Teresa Murphy the full-time missionary PA from the Seguin clinic. Teresa operate the remote Seguin clinic single handedly and was in need of expanding the few laboratory tests she was able to perform. The lower two panels shows patients waiting to be treated.
